

Agent: Peter MacFarlane

LYNN PICKNETT and CLIVE PRINCE CONSULTANTS EXTRAORDINARY...

For three decades their books have concerned a huge range of historical and religious mysteries, uncovering real-life conspiracies while staying refreshingly down-to-earth and non-credulous. Their books – and specialities - include:

Turin Shroud: How Leonardo Da Vinci Fooled History. Exposing the 'relic' as the unknown Da Vinci – not only in theory: Picknett and Prince were the first to recreate all its 'miraculous' characteristics. Featured in many documentaries by Sir David Frost, National Geographic and others.

The Templar Revelation. Exposing Da Vinci's secret heresy and the Church's cover-up about Mary Magdalene. The direct inspiration for The Da Vinci Code. Picknett and Prince have cameos in the movie.

The Stargate Conspiracy. Exposing US Government experiments into belief systems leading up to the Millennium – hijacking the New Age.

Double Standards: The Rudolf Hess Cover-Up (co-authored with Stephen Prior). How the Deputy's Führer's flight to Scotland was exploited by Churchill and secretly welcomed by the highest in the land...

War of the Windsors: A Century of Unconstitutional Monarchy (with Stephen Prior). The subtitle says it all...

Friendly Fire: The Secret War Between the Allies (with Stephen Prior). WW2's hidden hostilities between Britain, America and the USSR.

The Sion Revelation: exposing the myths of a famous secret society but revealing the truth about Europe's most disturbing political cabals.

The Forbidden Universe: The Occult Origins of Science and the Search for the Mind of God. How an ancient philosophy underpins even the most cutting-edge modern science.

Coming in January 2020:

When God Had a Wife: The Fall and Rise of the Sacred Feminine in the Judeo-Christian Tradition. Revealing the strange history of goddesses in the history of Judaism and even Christianity.

LYNN and CLIVE are experts on secret societies; the real Da Vinci; the occult in art; heresies; dark Church history; hidden WW2; ancient mysteries; the origins of science; 'Fortean' weirdness; spies and intelligence agencies; psychological warfare - and other topics
